SMART-VIEW™
ADJUSTABLE FERRULE

We made our Patented Adjustable Ferrule System easier to use with Smart View – a small window that allows you to see your offset.

The flush button and positive connection make it look and feel like a 1-piece paddle.

No more stickers to wear, scratch or tear.

TOURING: HIGH ANGLE

HIGH ANGLE: Faster cadence, wider variety of paddle strokes used and shorter paddle lengths.

PERFORMANCE CORE

Handcrafted in Sultan, WA USA.

For generations this statement has stood for quality goods built by caring experts. Over forty years ago Werner Furrer Sr. saw a need to design and build his own kayak paddles. His goal was to give his family more enjoyment as they explored the waters of the Pacific North West.

Today, a short distance from where the first paddle was built in the family garage, Werner Paddles now calls Sultan Washington home. It is here that the employees of our design and production team handcraft the world's finest kayak, canoe and stand up paddles. It is these folks who pour their pride into every paddle to give our customers more enjoyment on the water.

This pride and quality workmanship is evident every time you pick up a Werner Paddle. You see in our unsurpassed attention to quality and feel it with every stroke.

Check out our FitGuide, Healthy Waters program and Wernertv online. Find us on Facebook.
